TC-300

Protect your workers, businesses, and customers by encouraging accountability for behaviour.

Body Worn Cameras are an essential tool to ensure safety is maintained in difficult situations.

Footage from body worn cameras can be used to demonstrate compliance with regulations as well as providing an alternative viewpoint when reviewing ways to ensure the safety of your workers.

The TC-300 is an IP66 Rated Body Worn Camera fitted with a High resolution Camera and IR Night Vision capability.

Included with the TC-300 is a 128GB SD RAM SD card, belt clip, drop in charger and a 240V USB plug pack. A USB cable is also provided for connection to a PC to download files.

Features

10 Hours Continuous Video Shooting

The TC-300 is supplied with a 3400mAh battery which gives 10 Hours continuous video shooting at 1080P @30FPS

Pre and Post recording

Captures 12 seconds of video before and after the record key is activated

Separate buttons

For Video, Audio and Still image recording.

IPS Colour Display

The TC-300 has a bright 5cm 320 x 240 Colour Pixel IPS for a wider viewing angle

Hi Res Video

The TC-300 has a built in 48 Mega Pixel HD camera for crystal clear images

IR Camera with 140 Degree Vision

The TC-300 has Infrared Night Vision capability and a Wide 140 Degree image capture

WiFi Control

Using the dedicated Android APP, the camera can be fully controlled via Wi-Fi including image and video downloads

Extendable SD RAM

The TC-300 is supplied with a 128GB SD card that can be extended to 512Gb if required
